The Future is Now!

The Kansas Lottery is excited to begin the rollout of our ticket vending machines at select retailers across the state! 272 locations will be getting a vending machine, with implementation starting in July.

“The Kansas Lottery is excited to join the majority of other states offering the convenience of selling lottery products through self-service vending machines,” said Stephen Durrell, the Acting Executive Director of the Kansas Lottery. “We look forward to the opportunity of increasing our sales and our transfer to the state. We feel the machines will also provide easier access for our players to find their favorite games.”
