

# HOW TO PLAY

Mega Millions® jackpots start at \$50 million. There are nine ways to win and you could win up to \$10 million without even hitting the jackpot.

## HOW TO PLAY:

1. Ask the store clerk for a Quick Pick (QP) ticket or fill out a play slip. Each play slip has five boards. Each board costs \$5. Each board contains two sets of numbers: one set from 1 through 70 and the second set from 1 through 24.
2. To play a board, pick five numbers from the set of 70 numbers, then pick one number (the Mega Ball®) from the set of 24 numbers. Fill in the circles for the numbers you wish to play. Do not use red ink and do not erase. If you make an error, mark the VOID circle, and then make selections on another board.
3. You may purchase the same boards for up to 15 consecutive draws on one single ticket when you check the appropriate number of draws in the “multi-draw” circle.
4. You may select QP and have the computer randomly pick the numbers for you. Either mark the QP option on the play slip for up to five boards and your desired multi-draw option or ask the store clerk for a QP ticket for up to five boards and your desired multi-draw option.
5. The Multiplier feature is a built-in multiplier on every play, automatically improving every non-jackpot win by 2X, 3X, 4X, 5X or 10X – up to \$10 million for matching the five white balls. The Multiplier is randomly assigned at the time of purchase.
6. Tickets cannot be canceled after issued. You are responsible for the selection of your numbers and options, not the retailer or the Lottery.

## YOU CAN CHOOSE HOW TO COLLECT YOUR MEGA MILLIONS JACKPOT
